

1,AIR 1 is the only positive clean talk, clean music station in my area that reaches countless thousands of young people with an alternative to the corrupt speech and lewd lyrics of other radio stations.

2,thousands of people would no longer be able to choose AIR 1 over other stations using sexual suggestion and language that describes what we flush down the sewer to sell their merchandise.

3,Air 1 advocates clean living, clean life styles, clean ideas and is reaching out with a heart bent on making a difference for the better and public good and they have been there for me personally!

Please no LPFM. AIR 1 REACHED ME!
